Project Group: Machine Learning for Predictive Maintenance

Minutes for May 20, 2021. 10:00 - 12:00

Present: Tanja Tornede *(Supervisor)*, Christopher Zinda, Paul Fährmann, Sanjay Gupta, Vinay Kaundinya.

Minutes-taker: Paul Fährmann

Topics Discussed:

Implementation

Details —

1. Dataset-Parser should be finished, so implementation of approaches can be tested with real data.

2. Constructor parameters of classes that inherit from BaseEstimator should save those parameters with the same name in the object (e.g. self.parameter = parameter). Otherwise the get_params and set_params methods won't work properly.

3. Pay attention to the order of imports on the ___init___.py module files to prevent the "partially initialized module [...] circular import" - error.

Next Meeting:

1. Date and time: May 27, 2021 at 10:00 - 12:00

2. Person responsible for minutes: Sanjay Gupta
